800-864-3824 Duluth Office

B. Miller Products is introducing an exciting new product for an old problem - the WizKid Mat. Never stand in urine again! During the development of the patented WizKid Mat, some special features were added.

The WizKid Mat is anti-microbial. As your customers become more conscious of germs and bacteria, they will benefit from the cleanliness offered by this product.

The WizKid Mat is long lasting and disposable. The chart below will help you to determine an approximate timetable for mat replacement.

Environment	Usage	Replacement Schedule
Typical Office	50 times per day	Monthly
Retail Stores and Restaurants	200 times per day	Every two weeks
Schools, Colleges and Universities	300 times per day	Every week
Airport, Stadiums, and Rest Stops	Continual	Every other day or as needed

The WizKid saves you money. The highest expense in maintaining a clean restroom is labor costs. With the WizKid Mat in place, your floors will stay cleaner between scheduled cleanings, reducing the frequency of spot mopping.

The WizKid Mat preserves your restroom. The mat protects tile, marble or wood floors from the stains and stench left by the inevitable drip by capturing the urine. The WizKid Mat makes your restrooms a more pleasant environment.

Your commitment to excellence shouldn't end at the door to the restroom. Surveys have shown that attention given to your restroom facilities improves the customer's confidence in your company. As automatic flushes and faucets are becoming the standard, so will the WizKid Mat. Your customers will never stand in urine again!

OCTOBER THRU DECEMBER SPECIAL: \$6.75/mat 12/case Sold in Case Quantities.
Wrap-Around Mats for Commode/Toilets also available for the same cost, 12/case.
